MINING, BUSINESS AND STOCKS

APRIL SALES ON THE EXCHANGE.

Month Ended With Business Aggregating Close to a Quarter Of a Million Dollars.

THIS HAS BEEN A BUSY WEEK

Lower Mammoth and Carisa Made Sensational Advances but Closed Weaker Today.

Today's calls of the Salt Lake Stock and Mining Exchange wound up the business for the month of April during which \$38,975 shares were sold for \$249,931.53. The week has witnessed some brisk trading. A few of the traders have been marked up with some stiff advances and, on the whole, market conditions at the close of today's business were considered satisfactory.

Early in the week Ajax displayed activity and the stock sold at strengthened prices. One small lot of Beck Tunnel changed at 8% cents and Butler-Liberal gained favor around 13% and up to 14% cents. Con. Mercur was brought out to the extent of 3,600 shares at 39@40; while the Daly stocks of Park City found practically no demand at any figure. Lower Mammoth furnished one of the sensations of the week, by doubling in price. The buying was spirited for a stime on the strength of improved physical con-ditions. The stock closed today with an offer of 32 cents and nothing bid. Little Chief created somewhat of a stir and altogether more than 36,000 shares went down under the hammer around

small lot of Mammoth brought New York Bonanza sold down to 75 cents and then went up to 93 cents, but closed the week with a bid of 88% cents. Carisa, like Lower Mammoth, practically doubled, but closed weak

There was some trading done in Sacramento, Silver Shield, Star Con., Tetro, Uncle Sam, Ingot, Victor Con., Wabash and Yankee, but none of them were in any great demand. The closing quotations and sales to-day were reported as follows:

UTAH COPPER.

The Mine is Now Sending Out 900 Tons Of Ore Daily.

Conditions at the Utah Copper company's mine never were so promising since the inception of the enterprise as at present, says the Bingham Buile-tin. The mine is now called upon for a production of 900 tons of one daily through increased efficiency at the mil and Superintendent McDonald is responding to the demand without particular effort. The electric haulage system has been installed and was started up last Friday. The main tunnel and a number of the lateral workings have been wired and the wiring is being extended as rapidly as possible. The five-ton motor is bringing out 20 tons at a load and will be able to do better than this when everything is limbered up.

13. Star Con. 1, South Swansea 4, Bultion-Beck 31, Genini 42, La Clede 1, Carisa 5, Grand Central 19, Ajax 9, Bales, lease 1, Osborn, lease 1, Paxman, lease 1, Victor 3, Godiva 2, Brooklyn 1, Swansea 2, total 587 carolads.

Strike in the Cyclone.

F. W. Muhlenbrook, superintendent of the Cyclone property at Stockton has advised his associates that on last

Mr. McDonald has in contemplation

with the Quinn tunnel, thus making a complete circle. It then will possible for electric trains to e the main tunnel, make a complete cir-cuit of the workings and come ou brough the Quinn tuunel, and vice

Some of the best ore ever found Some of the best ore over found in the Utah company's ground is now being developed on the east side of the canyon. The Third East workings have gone into rock, the cleavages of which are filled with native copper, the conditions are being characteristic of the adjacent ground explored by the Ohio company. An eight-foot veln of sulphides, opened in the Ohio workings, has also been eneight-foot vein of sulphides, opened in the Ohio workings, has also been en-countered. This vein carries an av-erage of 5 per cent coper and is heavy with iron. On the west side a pocket of red oxides was recently en-countered, carrying from 25 to 30 per cent, but this body was of limited ex-tent.

Every day's development at the mine seems to justify the prediction that the Utah company will be paying dividends

Utah company's mill also is a fine account of itself this giving a fine account of itself this month and is working up a wonderful amount of ore. A month ago it was handling 700 tons daily. Superintendent Janney now is putting through from 850 to 500 tons every day and it is the expectation to do even better than this. Added to this increased there are the proportion of the state of th nage, there is an improvement in grade of the ore and the mill prolow carries considerably over per cent copper, 22 tons of ore being put into one ton of concentrates. The production for this month will exceed a thousand tons of these high grade

oncentrates.

With the installation of the additional equipment contemplated the capacity of the mill will considerably exceed 1,000 tons.

APRIL DIVIDENDS.

Silver King and Grand Central Checked Out \$112,500 This Month.

April will pass as a light dividend April will pass as a light dividend month for Utah mines, only two companies participating in the distribution of veivet. The Silver King of Park City passed out the usual \$100,000 and the Grand Central reappeared, after several months' silence, with \$12,500.

SIGNET CONTRACT SIGNED.

Company Has Let a contract for 200 Feet of Tunnel Work.

The "Signet" mine of American Fork canyon is looking up. According to re-cent reports from there conditions are very encouraging. The company recent-ly let a contract for 200 feet of tunnel work, also installed a new alr pipe line, put in tracks and cars, and now the official staff is living in hopes that Anna Eva Fay's prediction, that pay ore would be struck in May, will come

President Steward, Vice President Young and Secretary George will visit this property Sunday with two or three prospective investors.

WOLFERNITE IN ALTA. Large Deposits Have Been Disclosed i

Manager Henry M. Crowther of the Continental Alta minese is exulting over the discovery of the presence of wol-fernite in the mine at Alta. While the extent of the deposit is yet to be ascertained, there is every reason to believe that it is in such quantity that it will prove to be an important asset of the company in the future. In one of the stopes the width of the deposit shows as much as 60 feet. Wolfernite has a composition which consists of 53 percent lead and 43 percent molybdenum oxide and its value is about \$200 to the

Mr. Crowther's office was besieged during the day by visitors anxi-ous to get a glance at the samples brought down from the mine on Mr.

Crowther's last trip.

The wolfernite is of a wax yellow color and Mr. Crowther states, is readily separated by agitation over the orery at Alta is likely to attract a great deal of attention to that district and the late developments may be the fore-runner of a genuine boom in the fa-nious camp of the Wasatch range.

THE OHIO'S EARNINGS. Statement Being Prepared for Informa-

Cashier Haves of the Utah Conus ompany has been engaged for several lays in going over the books of the days in going over the books of the Ohio Copper company to ascertain the earnings, tonnage treated, value of ore, etc., for the information of the holders of the existing option, which is really the Guggenheim Exploration company. Under the direction of D. C. Jackling the development of the Ohio perphyries is proceeding steadily, and, it is said, with exceedingly gratifying results.

TINTIC ORE SHIPMENTS. A Total of 387 Car Loads Sent to Smelters This Month.

Special Correspondence. Eureka, April 28.—The ore shipments for the week ending Thursday, April 27, were 149 carloads produced by the following properties: Bullion-Beck 9, Gemini 14, Yankee Con. 2, May Day 9, Uncle Sam Con. 6, Eagle & Bine Bell 13, Centennial-Eureka 88, Ajax 2, Carisa 1, Grand Central 5, Mammoth 10.

April, ending the 27th, are as follows: Clentennial-Eureka 351, Eagle & Blue Bell 26, Mammoth 41, Godiva 1, Yankee Con. 10, May Day 22, Uucle Sam Con. 13, Star Con. 1, South Swansea 4, Bul-lion-Beck 31, Genini 42, La Clede 1, Carisa 5, Grand Central 19, Ajax 9, Bales, Lawa 1, Caborn, Lawa 1, Marrian

a most claborate system of under-ground trackage. The Third East cross-cut, which extends from the main tunnel across to the east side on the Tip Top claim at a point 300 of the canyon, will be connected up feet from the mouth of the tunnel.

BIG DEAL MADE IN TONOPAH.

Property of the Mizpah Extention Mining Company Goes for Large Consideration.

THE TONOPAH-HOME COMPANY

Is the Purchaser - Group Acquired Consists of Thirteen Claims on Oddie Mountain.

The news was flashed over the special wire of James A. Pollock & Company during the forenoon to the effect that the management of the Tonopah-Home Mining company of Tonopah had closed a deal for the purchase of the Mizpah Extension property, located on the east slope of Mt. Oddie and consisting of 13 claims. The price paid for the ground was not mentioned in the dispatch, but was not mentioned in the dispatch, but taking the quotations on the stock during the past week for a basis, it is probable the purchaser has agreed to shell out anywhere from \$200,000 to \$250,000. Adjoining the Mizpah on the west is the territory owned by the Tonopah Belmont and Tonopah North Star companies. On the south of the Mizpah is the Halifax group, owned by David Kieth and associates of this city.

The Tonopah-Home company's territory is not contiguous to the Mizpah, but is located on the west slope of Mt. Oddie. It adjoins the Montana-Tonopah group on the northwest, however, and is believed to contain an extension of the rich ledges opened in

extension of the rich ledges opened in

THE KESWICK SMELTER.

Plant Will Not be Closed on May I as Expected.

Redding, Cal., April 29.—Notwith-standing reports to the contrary, it is positively stated, in the authority of Manager Wright and Acting Manager Cole, that the Keswick smelter will not be shut down on May day. The plant, however, will within the next ten days, be temporarily closed for the purpose of making some changes and to facilitate making some changes and to facilitate the work of tearing down and removing the converters which are to be shipped to the company's new plant near Martinez.

After some necessary changes have been made one furnace will be kept in constant operation and another which is in readings to blow in whenever necessity demands.

ORE FROM THE SHOSHONE. Initial Shipment Did Not Pan Out as

Well as Expected. Evidently the initial shipment of ore from the Shoshone mine in the Bull-frog, Nevada, district, did not pan out quite as rich as the mangement of the o a statement released the ore averaged a little better than \$500 to the ton; the whole lot bringing a little more than \$20,000. There is nothing disappointing about this, howver, when it is considered that no

Mr. Macdonald, one of the officers of the company, departed for the west this afternoon and will be followed in a few days by General Manager A. E. Montgomery.

Speculator, of Butte.

Butte, Mont., April 29 .- The Speculaor Mining company will pass into the pands of the North Butte Copper comhinds of the North Butte Copper company in the course of a few weeks. On the agreement signed to sell the property a deposit of \$100,000 was made as binding the bargain. Yesterday, in further accordance with the agreement, \$1,000,000 was deposited in New York to the credit of the Speculator Mining company. The balance of the purchase price, \$3,900,000, is payable any time between now and June 1.

Files Incorporation Articles. The Maxelsior Mining company of

Heber city filed a copy of its articles of incorporation in the secretary of is \$25,000, divided into shares of the par value of 10 cents each. D. C. Hanks is president; F. M. Shelton, vice-president; Chase Hatch, secretary; J. C. Jensen, treasurer. The company owns calims located in the Provo district. Utah county.

Work is progressing steadily in the Amanda tunnel on the Starless group in Bingham under the Wall option. The President Evans of the United States ent Parts of Room at Dif-Mining company, and party, will leave for the east tonight in a special car-over the Denver & Rio Grande railferent Prices.

New York, April 29 .- The market ar. Louisville & Nashville rose 11/2 and Atlantic Coast line lost as much United States Steel fell % and the pregains were partly lost. The tone beeverything is running smoothly. The vaste heat boiler will go into commis-sion within a few days, it having been found necessary to replace some of the with the substantial losses were a number of advances which imparted a rug-ged appearance to the trading. The more effective pressure was concen-trated against the recent weak features metal and car equipment stocks. Loss-The United States Mining company has commenced work on the new concentrator in which the low grade lead ores from the company's Bingham mines will undergo treatment. The plant has been located on a site a short distance south of the smelter. A force is at work putting in the foundations for the plant Henry M. Adkinson, manager of the New England Gold and Copper company, who was in from Bingham yesterday for a few hours, reports that he has resumed milling operations at that property. The enlargement of the plant will commence at an early date, the order for the additional equipment laying here placed some time ago.

The copper ore body recently opened up in the Keystone tunnel of the Fortuna company holds out good and strong with development. Supt. Start is sinking a winze from the tunnel level and is down 30 feet, at which point the vein is nine feet between walls. A 200-ton lot of this ore is being loaded for shipment to the smelter .- Bingham Mr. Van Patten of Ogden, one of the officials of the New York company, formerly the Bazouk, was in camp several days this week making a survey and examination of the Queen tunnel,

presumably to ascertain the relation of this tunnel to the New York vein. He was assisted by Martin Harkness and H. F. Samson of Salt Lke.—Bing-Herbert Harris, western manager of the Western Ore Separating company, has departed for Denver after having arranged the purchase of a site for the zinc mill to be built in this city, mention of which was made in the "News" some time ago. The location will be in the northwestern part of the city not far from the Oregon Short Line round houses. A five-acre tract of land has been obtained.

W. H. Peck, manger of the zinc mill at the Horn Silver mine at Frisco, Beaver county, met with a distressing Beaver county, thet with a distressing accident a few days ago by getting his foot mashed by a heavy piece of machinery falling upon it. He will be laid up for some time, but manges to get around on crutches. His brother, O. B. Peck, is expected to arrive on almost any train and will look after the plant for awhile.

the plant for awhile, Supt. Charles L. Rood of the Onsupt, Charles L. Rood of the On-tario Mining company stated during the day that good progress is being rade with the draining of the tunnel through the pipes driven through the wall dividing the main tunnel and the drift run around the caved section. Mr. Rood was not prepared to say, when seen by a "News" representative shortly before noon, how much the water had lowered, or if at all in the Ontario

BUSINESS NOTES.

The week has not witnessed many transfers of stocks, though brokers have been engerly inquiring for Idaho, Fremont, and Utah common. Bide of \$7.07 for the latter failed to draw out any sellers. The calls for the Idaho stocks is due to the fact that the consolidation of the two companies will take place on Tuesday next, after which it is expected that part of the treasury stock will be sold at par to the stockholders, which, at the going market rates for the stock, is equiva-lent to a fair sized dividend. Excel lent reports from all the beet fields are also having a strong effect on the

Crop Prospects Well Maintaged --Mercantile Collections Better-Silver Sent to Interior.

New York, April 28 .- Dun's weekly Review of Trade tomorrow will say: Activity at the interior is evidenced by the increased transfers thither of sliver dellars and subsidiary sliver by the treasury, crop prospects being well maintained despite excessive cold in a few sections. Railroad sarnings for April thus far exceed the same period last year by 10.7 per cent, while foreign commerce at this port for the inst week shows a gain of \$3,834,447 in value of merchandise imported and an increase of \$1,947,550 in exports as compared with 1904. Mercantile collections show further improvement and money remains abundant and easy. Strength is still conspicuous in the side situation, large tanners purchas-

ng more freely. Failures this week numbered 204 in the United States, against / 202 last year, and 15 in Canada, compared with 16 a year ago,
